5 LOCATIONS TO SERVE YOU

All **Express** workmanship is guaranteed 100% for as long as you own your car!

PAINT PROTECTION

Washing: To help ensure a long-lasting shine it is crucial to protect your paint. During the first 30 days you may hand wash your vehicle. To avoid abrasions from mud and road salt, you must use adequate water pressure if you hand wash. A soft-cloth car wash is also acceptable.

Waxing: We recommend waiting at least 60 days before using any hand-applied wax, and before applying a glaze or paint sealant. Silicone-based waxes should never be used.
